MESSAGE

At the outset, I would like show my gratitude to the Ministry of External Affairs (MEA), Government of India, for successfully delivering its ITEC/SCAAP (Indian Technical and Economic Cooperation/and Special Commonwealth Assistance for Africa Program), an advanced educational initiative for developing countries. We continue our endeavor to deliver the best of technical knowledge to the students of Partner Countries and look forward to associating with the government of India for this unique initiative.

As the training partner in this extremely timely and crucial program, it has been NIIT's privilege to offer cutting-edge learning to international students. We have been doing so while being cognizant of the changes taking place in the global environment, and in particular, the technology and business trends reshaping the world.

Possibly the most disruptive of these developments is Digital Transformation (DT), which is also being referred to as the Fourth Industrial Revolution. As with the IT movement, where NIIT helped develop critical manpower that catalyzed the growth of the technical sector, we are now actively addressing the Digital Space, which also requires specialized talent to grow.

It is becoming imperative for instance, for individuals, organizations and yes, even nations to equip themselves with Digital Transformation skills to ride the Digital wave. In this scenario, NIIT has been providing training that is in sync with the paradigm shifts in the industry landscape towards building talent that is employable and job-oriented, ready for the modern digital workplace in any country.

Furthermore, these new age programs—that lead to recognized global certifications—are being delivered through our multi-modal, interactive learning platform Training.com and its pool of industry and subject matter experts, practitioners and mentors, to learners on an anytime-anyplace basis.

Additionally, NIIT is reaching students through StackRoute™, an initiative to produce multi-skilled, multi-disciplinary, top-of-the-line full stack programmers who can become key members of high-performance teams in top notch product engineering companies, start-ups, and IT firms.

Then there is NIIT.tv—a Digital learning platform that brings skilling from NIIT classrooms to all digitally connected Indians, for free, at any time and place of their choice and convenience.

These offerings, bolstered by the faith and trust that NIIT has built among its students, over nearly four decades, has placed it in the best position to meet the talent needs of the digital era. The company has been conferred with the title of 'Most Trusted Training Brand in India' for the 4th year in a row (Brand Trust Report, 2016) and continues to draw widespread recognition globally. NIIT has been named among the Top 20 Training Outsourcing Companies for the past nine consecutive years by Training Industry, Inc. USA. Further NIIT.tv, a disruptive innovation from NIIT, has won the prestigious award for 'Educational Technology', at the Indo-American Education Summit 2016.

I urge international students to leverage NIIT's strengths, products and experience in the training domain to gain global competitiveness, and build shining careers for themselves, by joining the pool of Digital Transformation professionals that the world needs today. At NIIT we assure you the best of IT training to the selected students as mandated by MEA.

Rahul Patwardhan
CEO, NIIT Limited

About NIIT

Established in 1981, NIIT Limited, a global leader in Skills & Talent Development, offers multi-disciplinary learning management and training delivery solutions to corporations, institutions, and individuals in over 40 countries.

NIIT University

Ushering in a new model in higher education is the not-for-profit NIIT University, established in 2009 with a vision of being the leading centre of innovation and learning in emerging areas of the Knowledge Society. Nestled in the foothills of Aravali, in Neemrana, Rajasthan, the picturesque 100 acres fully residential green campus has been developed as an institute of excellence based on the four core principles of providing industry linked, technology based, research driven, seamless education. NIIT University received "Best University in use of Technology in Teaching-Learning Practices" award at the National Education Excellence Awards 2013 by leading industry body ASSOCHAM, (Associated Chambers of Commerce and Industry of India) and the greenest and the most environment friendly campus award by India Today, 2011.

NIIT's Skills and Careers Group (SNC) delivers a diverse range of learning and talent development programs to millions of individual and corporate learners in areas including Banking, Finance & Insurance, Soft Skills, Business Process Excellence, Retail Sales Enablement, Management Education, Multi-Sectoral Vocational Skills, Digital Media Marketing, and new-age IT. These programs are delivered through a hybrid combination of the 'Cloud Campus' online platform, satellite-based 'Synchronous Learning Technology' and a physical network of hundreds of learning centres in India, China, and select markets in Asia & Africa. The flagship multi-disciplinary course offerings include the industry-endorsed GNIIT program and a set of Post Graduate Programs for students from different streams, apart from a wide range of specialist short duration programs.

To further strengthen its SNC portfolio in India, NIIT has tied up with industry majors like ICICI Bank for NIIT Institute of Finance Banking Insurance & Training Limited, IFBI; leading business schools in India for NIIT Imperia; Genpact for NIIT Uniqua and NIIT YuvaJyoti Limited, an NIIT subsidiary. Besides this, for the China market, NIIT has tied up with governments and software parks in Guian, Chongqing, Wuxi, Suzhou, Changzhou, Zhangjiagang, Haikou and Dafeng, for state-of-the-art public-private partnership centres.

Recently NIIT has introduced - StackRoute™ an initiative to produce the world's best full stack programmers. StackRoute™ aims to create multi-skilled, and multi-disciplinary programmers who can become key members of high-performance teams in top notch product engineering companies, start-ups, and IT firms. Further the company has also launched NIIT.tv - a digital learning initiative that brings skilling from NIIT classrooms to every digitally connected Indian, for free, at any time and place of their choice. A disruptive innovation by NIIT for the education space. NIIT.tv will deliver for the very first time, skill-based live courses as well as on-demand courses to the masses, through the digital medium.

NIIT's Corporate Learning Group (CLG) offers Managed Training Services (MTS) to market-leading companies in North America, Europe, Asia, and Oceania. The comprehensive suite of Managed Training Services includes custom Curriculum Design and Content Development, Learning Administration, Learning Delivery, Strategic Sourcing, Learning Technology, and Advisory Services.

With a team of some of the world's finest learning professionals, NIIT is dedicated to helping customers increase the business value of learning and development (L&D). Built on the sound principles of 'Running Training like a Business', NIIT's Managed Training Services and best-in-class training processes enable customers to align business goals with L&D, reduce costs, realise measurable value, benefit from rock-solid operations, and increase business impact.

NIIT's learning and talent development solutions, have received widespread recognition globally. The company has been named among the Top 20 Training Outsourcing Companies for the past seven consecutive years by Training Industry, Inc. Further, leading Indian ICT journal Dataquest has conferred upon NIIT the 'Top Training Company' award successively for the past 20 years, since the inception of this category. NIIT Yuva Jyoti Ltd was recognized as the Best Vocational Education and Skill Development initiative at the World Education Summit, 2014.

In recognition of its people-centric policies, which foster an environment of growth and career development, NIIT has been ranked as the 4th Best Company to work for in India 2013-14, by Great Place to Work Institute.

The ITEC/SCAAP Program and NIIT

The ITEC/SCAAP program was launched in 1964 as a bilateral program of assistance of the Government of India. Under this program, candidates from 161 countries are trained in some of the best Institutions in the fields of Information Technology, Rural Development, Management, Accounts, and Environment and Renewable Energy.

The Ministry of External Affairs, Government of India has entrusted NIIT to impart quality IT training.

The ITEC/SCAAP Programme has the following components:

- Training (civilian and defence) in India of nominees from ITEC partner countries
- Projects and project related activities such as feasibility studies and consultancy services
- Deputation of Indian experts abroad
- Study Tours
- Gifts/Donations of equipment at the request of ITEC partner countries
- Aid for Disaster Relief

NIIT Advantage

- Diploma in Advanced Networking: This course is planned as per the international curriculum of Microsoft Certified System Administrator (MCSA) and Microsoft certified Systems Engineer (MCSE).

- The English language programs enable participants to get familiar with basic English grammar. They will be trained on global English at the workplace with stress on communication skills, personality development and all round fluency in the language.
- The Certificate Course in Verbal Linguistics and Web Development is designed for participants who want to build a career in software development and want to learn Web and Enterprise Application using Sun Technologies.

Allowances and Venue

Allowances

This training program is being funded by the Government of India. A monthly allowance as per the Ministry guidelines will be allocated to all the participants for their day-to-day requirements. The participants will also be given Economy Class air tickets from Indian Mission of their country.

Venue of the Training Programs

The venue for all programs will be in and around New Delhi. The venue will have a state-of-art lab facility and classrooms that provide a conducive learning environment.

How to Apply

The interested candidates can participate in the programs through the following procedure:

- Contact the nearest Indian Embassy or High Commission in your country and fill the nomination form.
- Forward the completely filled nomination form through your respective organization to the nearest Indian Embassy or High Commission.
- The Indian Embassy or High Commission will then forward the form to the Technical Co-operation Division of Ministry of External Affairs, Government of India and copy to the NIIT Office in New Delhi.
- On approval by the Ministry of External Affairs, New Delhi, the Indian Embassy or High Commission will arrange for the candidate's travel to and fro at the expense of Government of India.

Study Tour

India is popular for its rich cultural heritage, world famous monuments and its cuisine.

During their stay the participants will get an opportunity to tour three cities in three different states. These include Delhi, Agra and Jaipur.

During their visit to Delhi, participants will get an opportunity to see historical monuments like the Red Fort, India Gate, Jama Masjid, Lotus Temple etc.

In Agra the participants can explore the beauty of the world famous Taj Mahal.

The visual treat of Amer Fort, Jaipur Palace, Hawa Mahal and Chaukidhani etc. will be a part of the Jaipur trip.

Testimonials

Greetings

I wish to express my heartfelt thanks and gratitude towards the government of India, ITEC and NITT Ltd. for this scholarship. I was given a unique opportunity to be exposed to English Language Course, Indian Culture, food and way of life.

I have had fantastic days in and out of the training session and i am sure this certificate will help me both personally and professionally.

Regards

Krishna Rao Dhallapah
Mauritius

I would like to express my gratitude to the government of India and ITEC for this great scholarship, I am glad that i got this opportunity to meet so many people from different countries and at the same time learn and gain knowledge .

I would like to Thank my trainers for treating us like family and helping in our learning.

I had great experience.

Regards

Anas Ghannam
